

2015

- Companyà, J., Ogaya, X., Jones, A.G., Rath, V., Ledo, J., McConnell, B. 2015. Evaluation of the potential of the Clare Basin, SW Ireland, for onshore carbon sequestration using electromagnetic geophysical methods. EGU, Vienna (Austria).
- Companyà, J., Ogaya, X., Jones, A.G., Rath, V., McConnell, B., Ledo, J., 2015. IRECCSEM: Evaluating Ireland's potential for onshore carbon sequestration and storage using electromagnetic geophysical methods. IGRM, Belfast (Northern Ireland).
- Ogaya, X., Companyà, J., Jones, A.G., Rath, V., McConnell, B., Ledo, J., 2015. IRECCSEM (Part I): Evaluating the preliminary results of the geoelectrical characterisation of Clare Basin for assessing the potential of the area for CO₂ geological storage. IGRM, Belfast (Northern Ireland).

2014

- Companyà, J., Ogaya, X., Jones, A.G., Rath, V., Ledo, J., McConnell, B., IRECCSEM TEAM, 2014. IRECCSEM: Evaluating Ireland's potential for onshore carbon sequestration and storage using electromagnetics. 22nd EM Induction Workshop, Weimar (Germany).
- Companyà, J., Ogaya, X., Jones, A.G., Rath, V., Ledo, J., McConnell, B., 2014. IRECCSEM: Evaluating Clare Basin potential for onshore carbon sequestration using magnetotelluric data (Preliminary results). New approaches applied for processing, modeling and interpretation. AGU, Fall meeting, San Francisco (USA).
